

Dear Doctor Voss,

Two years ago Kathy and I visited with you regarding the progression of her deteriorating knee. Kathy had lost her mobility, lived with severe pain, and essentially had lost her quality of life.

Thanks to your skill as a doctor and your compassion and caring as a person, Kathy has her life back and I have my Kathy back with a smile on her face and the sparkle back in her eyes.

I cannot express how my prayers have been answered and how much I appreciate what you have done for Kathy. Thank you & Bless you.
