

Thanx again Dr. Fulkerson for repeatedly putting me back together. I felt so good about my knee passing the test of mountain hiking I wanted to share these pics with you, & let you know my gratitude for helping me with my orthopedic issues, of which there have already been too many. Next on the agenda for this summer is; bungee jumping, sky diving, glacier skiing, hang gliding, motorcycle racing, etc.

Seemingly eternally healing!

Rick Berne
